The screenshot displays a REST client interface for a POST request to `http://localhost:3000/api/login`. The request body is a JSON object containing login credentials. The response is a 200 OK status with a JSON object containing login details.

Request:

```
1 {
2   "correo": "admin1@gmail.com",
3   "contrasena": "12345"
4 }
```

Response:

```
1 {
2   "id_login": 1,
3   "correo_login": "admin1@gmail.com",
4   "usuario_login": "admin1",
5   "roles": "Administrador",
6   "estado_login": 1
7 }
```

The interface includes tabs for Docs, Params, Authorization, Headers, Body, Scripts, Tests, and Settings. The Body tab is active, showing the raw JSON request and response. The response status is 200 OK, with a response time of 8 ms and a size of 277 B. The response is saved and can be viewed in a preview or visualized.
